## QISHORE DANDA Corporate Trainer

Mr. Qishore Danda, has close to two decades of experience in dealing with students and IT professionals. He had rich experience of working as a lecturer both in India and Abroad in some of the best universities like **Raffles and Binary**.

He is associated with multinational companies like **Infosys, CSC and iSOFT**. He worked in different departments and in various capacities. The testimony of his abilities is starting his career as a software engineer to becoming a **Director** and also working through the length and breadth of various verticals spanning Requirement Gathering, Testing, Quality Assurance, Audits, Process Trainings to turn around of

“We don’t rise to the level of our expectations, we fall to the level of our training.”

multiple high risk projects. He was a star performer and was awarded the **Top Trainer** on process training at Infosys. He had trained best techies from **IITs**, Managers from reputed **business schools** and **IIMs**.

He **Co-founded** UniMindz Services & Technologies LLP, which is into Recruitment, Corporate Trainings and Software Development. Their achievement was building a numero uno platform-EdVertex, which is being used by some of the best universities like **BITS, AMRITA, KIITS, PES** etc.,

He started **THE IKIGAI, Centre for Life Skills** and visited various Universities and Colleges for **College Connect** and **Train the Trainer programs**, to empower youth with the required life skills and providing career counselling. He is also

an **Art of Living Teacher** and is working on transforming lives of individuals and professionals by helping them overcome stress and leading a quality life.

## Training Methodology

Based on the experience gained from the work done for the last two decades, they developed a unique training methodology which is called **Ashtang Marg**. On a broader perspective, this methodology consists of eight steps each flowing into the other.

Meeting with management | Understand concerns | Identifying stake holders | Team meetings | Finalising parameters for improvement | Course development | Conducting workshop or Project execution | Collecting feedback.
